

Aqueous Guard[®]

EFFORTLESSLY PROTECT
SURFACES FOR YEARS,
IN MINUTES

Bacteria lands on the Aqueous Guard[®] Plus+ Biomaster[®] protected surface.

The bacteria are prevented from growing, producing energy or replicating.

Therefore the bacteria die off.

Credit: Biomaster by Addmaster 2019 www.addmaster.co.uk

- **Tested** against the SARS-COV-2 virus (the cause of **Covid-19**)
- The coating itself was created to create an **easy clean** surface, now with the added benefit of **antimicrobial technology**
- Can be applied to door handles, worktops, lift buttons, hand rails, light switches, toilet handles and many more
- **Simple application** and **fast curing**
- **Reduces** the need for heavy **chemicals** and **cleaning time**
- Has been applied to thousands of touch points already in hundreds of 620 supermarkets, distribution centres and offices
- Click here to read more on our website: [PLUS+ Rapid Cure](#)
